DETAILED ACTION

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: the closest prior art of record (Nelson et al., U.S. Patent No. 5,835,720) does not teach or suggest in detail automatically altering the established order in which the alternative discovery methods should be performed as programmatically determined according to a first number of devices compliant to the first discovery method and a second number of devices compliant to the second discovery method according to the dynamically gathered record in combination with all the elements of the independent claims as argued by Applicants. So as indicated by the above statements, Applicants' arguments have been considered persuasive, in light of the claims limitations.

2. The dependent claims further limit the independent claims and are considered allowable on the same basis as the independent claims as well as for the further limitations set forth.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Claims 1-2, 5-6, 18-19, 22-23, 35 and 37-39 are allowed.
